Do you have a scholarship program?

Subscription and Billing · https://www.re-origin.com/support/do-you-have-a-scholarship-program

We occasionally offer scholarships to support new members in joining re-origin. While there aren't any available at the moment, new opportunities are announced via our email list and social media channels.

Scholarship places are limited, and applying does not guarantee a spot. If you'd like to be considered for future opportunities, you can submit an application below.

If a place becomes available and your application is successful, we'll be in touch. This is not something we are actively doing in 2026.

Submit an application for a Pay It Forward scholarship

How will I know when scholarships are available?

We announce new scholarship opportunities through our email list and social media, so we recommend staying connected there.

Does applying guarantee a place?

No, scholarship places are limited and offered based on availability and application review.
