What Is Group Coaching?

Group Coaching is designed to complement the re-origin program by offering guided support in a group setting. These sessions help members stay consistent, build confidence in applying the tools, and navigate challenges with expert guidance.

Many members find that group coaching helps them:

- Stay accountable and maintain momentum
- Deepen their understanding of neuroplasticity tools
- Feel supported and less alone in the process
- Ask questions and receive real-time guidance

While the core re-origin program is self-paced, Group Coaching adds a layer of structure and connection that can enhance your overall experience.

Group Coaching is a **members-only feature** and is not available to the general public.

To access and purchase these sessions, you must:

- Have an **active subscription** to the re-origin Program + Community
- Be **logged into your account**

Only users who meet these criteria will be able to view the **Members-Only Add-ons** section where coaching options are listed.

If you are not currently subscribed, you will not see these options until your subscription is activated.

Why Is Group Coaching Members-Only?

Group Coaching is designed to build on the foundations of the re-origin program. Because of this, access is limited to members who are already familiar with the tools, language, and approach.

This ensures that:

- All participants have a shared baseline understanding
- Sessions can go deeper without needing to cover foundational material
- The group environment remains supportive and aligned

Keeping coaching exclusive to members helps maintain the quality and effectiveness of each session.

What if My Subscription Should Be Active but I Still Have No Access

If you believe your subscription is active but you still cannot access Group Coaching, please contact our support team.

We will be happy to:

- Check your account status
- Confirm your subscription details
- Help restore access as quickly as possible

Group Coaching is a valuable addition to your re-origin journey, offering structured support and a sense of connection as you apply the tools in real life.
