What is Momentum Group coaching?

Coaching and Support · https://www.re-origin.com/support/what-is-group-coaching

Momentum Group Coaching is a collaborative experience held virtually on Zoom, where you participate in sessions led by a coach alongside other members participating in the re-origin program. It provides an opportunity to share experiences, gain insights, and receive guidance in a supportive and uplifting group setting.

The groups meet weekly at the same time and day, with the same members, for a continuous 12-week period and each session dives into a different part of the re-origin program.

If you’re interested, you can add Momentum Group Coaching to your cart when you join the program and save $50 off the regular price. It’s a special offer for new members to help you get started strong, but there’s no pressure.
