Where are my quiz results from the self-assessments?

General FAQs and Resources · https://www.re-origin.com/support/where-are-my-quiz-results

Your quiz results appear immediately after completing the quiz, directly on the same page.

At this time, results are not emailed or saved, so if you've closed the page, you won't be able to retrieve previous results. The simplest way to view them again is to retake the quiz, which you can do anytime on our website.

The quiz is designed to give you a helpful snapshot of your current patterns and symptoms, and many people find it useful to revisit it over time to track changes and progress.

Can you send me my previous quiz results?

We don't store quiz results or personal responses, so we're unable to access or resend previous results.

Can I take the quiz more than once?

Yes, you can retake the quiz as often as you like. Many people repeat it over time to reflect on changes in their symptoms.
